

**In the claims:**

Please cancel non-elected claims 9-14 without prejudice to filing a divisional application containing the same.

Please add claims 15-29 as follows:

---

- 92
15. The contact lens of Claim 3, wherein the distance vision zone has an oval shape.
  16. The contact lens of claim 2, wherein the near vision zone is substantially concentric with the rotational axis and extends radially outward from the distance vision zone.
  17. The contact lens of claim 15, wherein the near vision zone is substantially concentric with the rotational axis and extends radially outward from the distance vision zone.
  18. The contact lens of Claim 15, wherein the optical zone includes a top edge and the ridge zone comprises a first side edge and a second side edge, the contact lens further comprising a ridge-off zone extending outwardly from the top edge of the optical zone, first side edge of the ridge zone and the second side edge of the ridge zone, the ridge-off zone having sufficient area so that the ridge-off zone, the optical zone, the ridge zone and the transition zone cover substantially all of a user's cornea.
  19. The contact lens of Claim 3, wherein the optical zone includes a top edge and the ridge zone comprises a first side edge and a second side edge, the contact lens further comprising a ridge-off zone extending outwardly from the top edge of the optical zone, first side edge of the ridge zone and the second side edge of the ridge zone, the ridge-off zone having sufficient area so that the ridge-off zone, the optical zone, the ridge zone and the transition zone cover substantially all of a user's cornea.
  20. The contact lens of Claim 16, wherein the optical zone includes a top edge and the ridge zone comprises a first side edge and a second side edge, the contact

lens further comprising a ridge-off zone extending outwardly from the top edge of the optical zone, first side edge of the ridge zone and the second side edge of the ridge zone, the ridge-off zone having sufficient area so that the ridge-off zone, the optical zone, the ridge zone and the transition zone cover substantially all of a user's cornea.

21. The contact lens of Claim 17, wherein the optical zone includes a top edge and the ridge zone comprises a first side edge and a second side edge, the contact lens further comprising a ridge-off zone extending outwardly from the top edge of the optical zone, first side edge of the ridge zone and the second side edge of the ridge zone, the ridge-off zone having sufficient area so that the ridge-off zone, the optical zone, the ridge zone and the transition zone cover substantially all of a user's cornea.
22. The contact lens of Claim 3, comprising a soft contact lens material.
23. The contact lens of Claim 15, comprising a soft contact lens material.
24. The contact lens of Claim 16, comprising a soft contact lens material.
25. The contact lens of Claim 17, comprising a soft contact lens material.
26. The contact lens of Claim 18, comprising a soft contact lens material.
27. The contact lens of Claim 19, comprising a soft contact lens material.
28. The contact lens of Claim 20, comprising a soft contact lens material.
29. The contact lens of Claim 21, comprising a soft contact lens material.

---

**Remarks**

Support for newly added claims 16-17 can be found in the paragraph bridging page 6 and page 7.
